A brief description:

We are the 25th graduating class of Le Lido - Regional centre of Circus arts, Toulouse. We are composed of 15 young artistes of 11 nationalities. We will be hosting a series of masterclasses which have a technical base. Some will continue in this direction, at the research of a technique which is pure and precise, others will share tools which can be used in the creation of work, as well as explore ways of researching to create a technique which in itself is theatrical.

How does it work? How much does it cost? Where is it? Who is it suitable for?

During the day there will be 3 masterclasses which will run simultaneously; but you will choose to enroll in just the one you like the most! The duration of the masterclass will be three hours. The price of **the masterclass is 20 euros**. The workshop will be held at the training spaces of the circus education of Turku Arts Academy, Sepänkatu 1, 20700 Turku, Finland. Recommended experience: at least **5 months** of experience in circus.

DISCIPLINES:

Juggling

A juggling workshop exploring the utilisation of space rhythm and energy, these will be studied by improvisation and fixed movements.

with Simon Aravena and Carla Carnerero

Floor Acrobatics

A workshop where we will clean existing technique and tricks, write phrases of acrobatics as well as explore the basics of duo acrobatics. We will also explore new tricks and have the opportunity to work on individual goals or objectives.

In addition to this we will work on performing acrobatics in a way which is theatrical, in being conscious of the way different physicalities and uses of space by the body can be perceived dramatically

with Maxim Pairault and Ayru Quispe-Apaza

Aerials

The primary objective of this workshop will be to create a safe space of research, observation and reflection in which it is possible to confront oneself and one's weaknesses in order to find a sincerity, in parallel to trying to distance ourselves from the forms of aerial which already exist.

with Karita Tikka, Maristella Tesio and Marcelo Nunes
