# Top-up Bachelor's degree programme in Business Management

*Turku University of Applied Sciences is an innovative and multidisciplinary higher education institution in Finland, Northern Europe. The studies are work-life oriented, combining theoretical studies with professional skills. Turku UAS offers the kind of education that working life needs – both now and in the future.*

## Why choose the Business Management Programme?

In this programme you will gain competencies required in management positions in a demanding global business environment.

The studies combine theoretical and professional skills, and graduates have strong working-life competencies that allow them to enter their careers and be ready to contribute from day one. In addition, you can focus on the business area of your choice specifically through your Bachelor's thesis.

You will study in a multicultural environment. Our teachers are top experts in their field with up-to-date knowledge and encouraging pedagogical approach.

## What is a Top-up programme?

In our top-up programme, you will seamlessly build on the studies completed in your diploma by focusing on management.

You will complete one academic year at Turku University of Applied Sciences (August–June), after which you will earn your Bachelor of Business Administration degree.

The top-up programme is open to graduates from selected Singapore polytechnic diplomas – whether you will continue directly after your diploma or return to your studies after a few years.
