

# SUSTAINABLE REPORTING NEEDS

UN - SDG - Sustainable Development Goals

## ENVIRONMENT

- How can we further increase the reuse and high-quality recycling of materials?
- What new partnerships or technologies could help us reduce our carbon footprint by xx% by 2035?
- What are the main challenges in reducing mixed waste per employee?
- How can we ensure that at least 10-X biodiversity-promoting actions are implemented annually at our sites?
- What additional measures could improve our resource efficiency and support the regional circular economy?

## SOCIAL AND HUMAN

- How can we strengthen a workplace culture where everyone feels well and valued?
- What actions can we take to ensure zero serious injuries in our supply chain?
- How can we further improve employee well-being and increase our eNPS score?
- What new ways can we use to increase customer satisfaction with our services?
- How can we enhance customer communication and education of sustainability for different target groups and regions?

## GOOD GOVERNANCE

- How can we ensure that all staff complete ethical principles training by 20XX?
- What steps can we take to guarantee all partners commit to our ethical principles?
- How can we further improve transparency and trust in our organizational culture?
- What innovative procurement practices could drive both sustainability and cost savings and cost avoidance?
- How can we regularly assess and report the compliance and responsibility of our procurement activities?
